

## REMOTE TECHNOLOGY TO ASSESS ELASTIC WEAR

In light of the current events that are unfolding due to the COVID-19 virus, we have decided to temporarily close our practice. This is to protect our patients, their families and our staff. We would still like to monitor the progress of your elastic wear via remote technology in the meantime.

We request that you:

- Use the following protocol of images, taken with your mobile phone, and send through to us via email to [admin@mehtaorthodontics.com.au](mailto:admin@mehtaorthodontics.com.au). Dr Mehta or one of our team will assess the photos and respond accordingly.

- Let us know which
  - Elastic Type (Fox or Rabbit) you are wearing
  - What Sides (Left or Right or Both and How)- Take a photo with elastic on.
- Continue with your current elastic wear protocol until you hear otherwise from us. If you require more elastics, please request this from us and we can post them to you in the mail.

The Team at Mehta Orthodontics are dedicated to looking after you and we will be happy to answer any concerns or queries you have. Please call our normal surgery number on **8883 4444** and the message on the answering machine will guide you accordingly.

Thank you.
